- on **TELESTATS** — phone (062) 52 5404.

### EXPLANATORY NOTES

#### Introduction

This publication is issued each month as a supplement to the annual *Catalogue of Publications, Australia* (1101.0) of the Australian Bureau of Statistics, which lists Tuesday and Friday listing publications released on the day of issue and expected releases on the following five days (Canberra Office) or two days (State Offices).

2. Significant occurrences in ABS Publishing are highlighted in the section Publishing News which follows the list of publications issued during the month. Publishing News contains brief descriptions of the contents of new publications, describes changes in ABS publications and shows other information of interest to users of ABS publications.

#### Publication prices

3. Two prices are shown for each priced publication. The first price given is the 'over the counter' price while the second includes packaging and postage at ordinary rates within Australia. Overseas clients should add 10 per cent of the second price to meet the cost of overseas surface postage. Airmail rates are available on request.

4. Where no price is shown the publication is free.

#### Mailing list service

5. Clients who wish to receive free or priced publications on a regular basis may use the ABS computerised Publications Mailing List (PML) Service. Further details and order forms are available from any ABS office.

6. Clients (or subscribers) who already use the PML Service and who wish to amend their requirements should quote their account number when contacting ABS. The account number is shown at the top left hand corner of the address label used to despatch publications to clients.

7. Renewal notices are sent to all subscribers annually in respect of the subscription year commencing on 1 January. Payment for priced publications is required in advance and should accompany renewal notices returned to ABS.

#### Statistical information service

8. Each ABS office has an Information Service to assist clients. The service is designed to answer inquiries from clients on available official statistics, including statistics not published for economic reasons. Unpublished statistics cover a variety of topics such as population, dwellings, building, imports, exports, shipping, etc., in the form of computer printout, microfiche, magnetic tape or specially prepared tables.

9. In cases where a considerable volume of data has to be specially extracted or where a regular statistical service is required, a charge may be made.

#### Electronic services

10. **VIATEL.** Key \*656# for selected current economic, social and demographic statistics.

**AUSSTATS.** Thousands of up-to-date time series are available on this ABS on-line service through CSIRONET.

For further information phone the AUSSTATS Help Desk on (062) 52 6017.

**TELESTATS.** This service provides foreign trade statistics tailored to users' requirements.

Further information is available on (062) 52 5404

**W. McLENNAN**  
Acting Australian Statistician

ABS PUBLISHING NEWSNew Publications Released during December 19864115.0 Environmental Issues and Usage of National Parks, Australia, April 1986

This publication contains data on the number of persons aged 15 years and over concerned about environmental problems and also includes details of the type of problems with which these persons are concerned. Estimates are provided on households involved in recycling of refuse. The publication also includes details of the use of national parks in Australia, in particular the World Heritage Areas.

4311.1 Life Style : Health Risk Factors, New South Wales, October 1985 (\$1.20, \$2.10 incl. postage)

This publication contains details of a survey conducted in New South Wales in October 1985 on tobacco and alcohol consumption and on the incidence and nature of physical exercise undertaken. The information is presented along with a range of demographic and socio-economic characteristics and in some areas results are compared with a February 1977 survey of tobacco and alcohol consumption.

4103.4 Low Income Households, South Australia, (\$8.50, \$9.50 incl. postage)

This publication contains details on households which receive the lowest incomes. Special emphasis is given to identifying the characteristics of individuals in these households, including demographic profiles, living arrangements, employment, education, health and welfare.

Other Publishing News

Foreign Investment Australia 1984-85 (Cat. No. 5305.0), released on 23 December 1986, commented that this issue of the publication reflected, where appropriate, changes in foreign investment statistics introduced from September quarter 1985. These changes are based upon the new framework for foreign investment statistics and include changes in the coverage and presentation of the statistics as well as a number of changes in definitions and classifications.

Balance of Payments, Australia - Historical Series on Microfiche (1 July 1959 Onwards), September Quarter 1986 (Cat. No. 5337.0), released on 10 December 1986, stated that beginning with this issue estimates are included of exports and imports of goods and services at constant (average 1979-80) prices, together with associated implicit price deflators and terms of trade data.

Major Trading Banks, Australia, November 1986 (Cat. No. 5603.0) released on 18 December 1986, stated that, from October 1986, data relating to new and increased lending commitments and overdraft limits, normally included in Table 7 of the publication, were no longer available from the Reserve Bank of Australia. The ABS was investigating alternative sources of replacement data.

Private New Capital Expenditure, Australia, September Quarter 1986 Survey, Preliminary (Cat. No. 5625.0), released on 4 December 1986, commented that estimates in this publication differ from similar estimates in the National Accounts because of differences in scope and concept as indicated in paragraph 30 of the June 1986 issue of Catalogue No. 5626.0. In addition, seasonally adjusted estimates for total all industries differ because the estimates in this bulletin are formed by the addition of seasonally adjusted component industry estimates, whereas the National Accounts estimates are adjusted at the total all industries level (separately for new and second hand asset series). The publication also commented that June quarter 1986 estimates have been revised due to the annual sample revision and to incorporate revisions provided by businesses. The resulting changes have not greatly affected the estimates of total expenditure, but have had a greater impact on some component estimates.

Public Unit Trusts, Australia, June Quarter 1986 (Cat. No. 5645.0), released on 17 December 1986, stated that this issue is the first of a continuing series which will provide information on equity trusts divided into "domestic" and "international" equity trusts.

Weekly Earnings of Employees (Distribution), Australia, August 1986, Preliminary (Cat. No. 6309.0), released on 19 December 1986, cautioned that care should be exercised when comparing estimates in this publication with those included in the quarterly publication Average Weekly Earnings, States and Australia (6302.0) because there are important differences in the purpose, scope and methodology of this household survey and the Average Weekly Earnings survey of employers.

Price Index of Materials Used in House Building, Six State Capital Cities, September 1986 (Cat. No. 6408.0), released on 11 December 1986, noted that this was the last issue of this price index in the present form. The publication also indicated that the ABS was currently reviewing the composition and weighting of the price index of materials used in house building and that the new index numbers to be published in January 1987, will be expressed on a new reference base : Year 1985-86 = 100.0. When the new index is introduced, index numbers for specific groups of materials will no longer be compiled or published. The new publication will consist of a single table providing index numbers for all materials combined for each State capital city and the weighted average of the six State capital cities. Index numbers for a selected range of particular materials will be available on request.

Research and Experimental Development, Business Enterprises, Australia 1984-85 (Cat No. 8104.0), issued 5 December 1986, stated that the estimate of expenditure on Research and Experimental Development (R & D) carried out in Australia by business enterprises during 1984-85 has been revised upwards 9% on the preliminary estimate to \$721m at current prices. This represents a 90% increase in expenditure compared with 1981-82. At constant (average 1979-80) prices, R & D expenditure was estimated to have increased by 52% over this period.

Construction Industry Survey, Private Sector Construction Establishments, Summary of Operations, Australia 1984-85 (Cat. No. 8771.0), issued 2 December 1986, stated that in this publication action has been taken to adjust for the undercoverage in 1984-85 private sector construction industry statistics noted in the CIS preliminary publication (Catalogue No. 8770.0) by the incorporation of results from a supplementary survey of construction establishments selected from taxation sources. Accordingly there are some significant differences between preliminary and final survey estimates, in particular, the number of private sector construction establishments.
